PORTFOLIO   **LINKEDIN**   **GITHUB**

OBJECTIVE:

Aspiring data scientist with a strong foundation in statistics and a passion for solving real-life problems through data analytics. Currently pursuing **MSc in Statistics**, I have completed numerous projects that demonstrate my analytical skills, technical expertise, and proficiency in data analysis tools. Seeking opportunities to leverage my experience and contribute to impactful projects.

SKILLS:

Programming	Python, SQL
Visualization	Power BI, Plotly, Matplotlib, Seaborn, Excel Charts
Data Science	Excel, Pandas, Numpy, Web Scraping, EDA
Machine Learning	Supervised, Unsupervised, Clustering
Database	MySQL
Soft Skills	Team Work, Time Management, Adaptability.

EDUCATION:

Mumbai University - Bachelor in statistics   *June 2020 - April 2023*
CGPA : 8.6/10

PROJECTS:

May 2024

MUMBAI REAL ESTATE ANALYSIS AND PREDICTION

- I Scraped data from Housing.com using Selenium and Beautiful Soup.
- Cleaned and preprocessed the data using pandas and numpy.
- Conducted exploratory data analysis to get insights. detected outliers using box plot, histogram and IQR method.
- created a webpage and divided this project into three section. Analysis section, flat prediction and recommendation.
